Welcome to my Homepage

** Here I will collect the things I know or find out.
I'll write about Ubuntu/Arch Linux, Windows, Bash and Perl Scripting, Virtualisation and whatever else that could be interesting.

All I'm going to write here is tested by myself. I don't give a warranty of the functionality on other systems.**

If there are questions, suggestions or something else feel free to send me an mail.

> I'm also a hobby photographer, for those interested here is a link.

Play with Alix2D13 (Archlinux)

I bought an Alix board from PCEngines to experiment a little with it. Here are a few tips, no ready-made solutions for router or something like that only independent problem solver to run the Alix with Archlinux.
