changed Dokuwiki template

I've changed my Dokuwiki template and reorganized site structure.

New Template

My old Dokuwiki template was outdated and had problems since two DokuWiki Releases. Finally I junked the old template and fixed the problems by using an modified version of the DokuWiki standard template.

Reorganization

Changing the template resulted in changing the wiki-structure itself. I've changed the structure of blogtng and the pages. To obtain the comments while changing the pagenames was tricky but i hope I've got all.

If you find inconsistency or problems I would be grateful if you inform me that I can fix it.
